SYNOPSIS

GOYO: The Young General, focuses on the last months in the life of Gregorio del Pilar, one of the youngest generals of the Philippine Revolution during the American occupation of the Philippines, and the most trusted ally of the Revolution's President Emilio Aguinaldo.

After five months of relative peace, the U.S. Army begins its final push to crush the revolutionary army and capture Aguinaldo. Goyo faces the biggest challenge of his life as he oversees the large caravan of officers, soldiers and civilians making their perilous escape through the mountains of the Northern regions.

The hovering presence of death and failure throughout the journey ultimately calls into question Goyo's accomplishments and public admiration. The boy general is forced to grow up and ask the only question that matters during times of war: what does it really mean to be a hero?

REVIEWS

"Spectacular! Thanks to the film's aesthetic brilliance—incredible cinematography and production design par excellence, as well as a powerful musical score—Goyo never loses your attention...it's always beautiful. Some of the most breathtaking frames of any Filipino movie in recent memory." – Miguel Escobar, *Esquire*

"Goyo is a steady mix of genres--a historical retelling, a war film, a tragic romance and a coming-of-age story all at once, but it never loses its creative voice in the process. A well-paced battle scene that's simultaneously tense and comedic before erupting into an all-out bullet fest is one of the film's centerpieces."

– Anton D. Umali, *FHM*
